**Subject:** Partial CCR Closure and Post-Closure Plan Decision for Duke Energy Wabash Generating Station in Indiana

Dear Susan and Mary,

Last Friday we made a decision on closure and post closure plans for some of the CCR surface impoundments at the Duke Energy Wabash Generating facility in West Terre Haute, Vigo County, Indiana. I've attached a copy of the decision and a map identifying the units for reference. We expect the approval requirements for this decision to be used as a template for other CCR closure decisions. Please let me know if you have any questions or comments. All my best, Becky Joniskan
